

## Albert Fuqua, Candidate for Circuit Court Clerk

This letter is to officially announce my candidacy for Circuit Court Clerk and to ask for your help with my campaign. I have lived in Robertson County 54 years raising grain and tobacco with my father on his farm, until I entered Western Kentucky University, where I majored and minored in Agriculture and Business Administration.

After graduation, I spent many years in farm equipment, truck and parts sales. I was a director of the TN — KY Threshermen Association in Adams, TN for several years and a president of the Tobacco Belt Region of the AACA Car Club in Springfield. For approximately 7 years, my father and I produced an Old time farm show at the Tennessee State Fair called Hoot Owl Junction, where I also constructed the log cabin and county store for the exhibit. I have since then moved and rebuilt the Johnson one room school house in Adairville KY and have done numerous special projects for Cheekwood and various homes in the Historic Districts of Nashville.

With more than 50 years experience of living in Robertson County TN, I have witnessed the struggles and problems of our county, and my hope is to provide fairness and transparency to the citizens of Robertson County, and I will work with the attorneys to help make their jobs easier in filling documents and other dealings with the office.

I humbly ask for your support as the next Republican Robert County Clerk.

*-Albert Fuqua*
